

Triple Ade

Property Management

Investment Opportunity

Triple Ade Property Management presents an exciting investment opportunity with the acquisition of an undervalued property in Solihull, poised to be transformed into a luxurious 4-bedroom serviced accommodation.

This venture employs a strategic approach — Buy, Refurbish, Refinance, and Operate — to maximise returns and ensure a steady cash flow. By purchasing the property below market value and investing in high-quality renovations, Triple Ade aims to reposition it as a premium short-stay destination.

This modernised asset will appeal to corporate travellers, NEC exhibitors, airport passengers, and contractors, offering an upscale alternative for short-term accommodations. With a focus on delivering strong investor returns, this project exemplifies a robust business model in the property management sector.
